# **Connecticut Eye Center Offers Free Vision Clinics for Children Without Insurance**

## **Early Detection Key to Successful Learning**

### **Free Vision Clinics at West Hartford & Avon Connecticut Eye Centers**

Physicians from the Connecticut Eye Center are offering free vision checks to children without insurance to properly screen and diagnose school-aged children for potential vision problems. Early detection of vision problems significantly benefits a child’s learning ability throughout their school years.

These clinics have been set up to help children without insurance. To accommodate as many children as possible, four dates have been established. All children will receive a thorough, comprehensive eye exam personally conducted by either Dr. Albergo or Dr. Austin in their West Hartford or Avon offices. Appointments are required. To guarantee a spot please call 860-521-9230 to schedule an appointment.
